### Winter Mailbox Maintenance

- The Township does not provide snow removal for rural mailboxes and cannot ensure access to mailboxes for mail delivery.
- In all cases, mailboxes should be properly located, and constructed to avoid being damaged during snow removal operations. Decorative mailboxes which are placed in the Township's right of way are done so at the owners' own risk.
- If rural mailbox and/or post are damaged by snow being discharged from snowplows during snow removal operations, the Township is not negligent and is not responsible for repairs.
- If the mailbox and/or post is damaged by direct contact with the Township's snow removal equipment the Township will repair or replace the damaged items with a standard mailbox and/or post only.
- Determination of the responsibility for damage to mailbox will be by the Director of Public Works or designate. It shall also be at the Township's sole discretion as to whether the damage can be repaired or replacement with new materials is warranted.
- If determined the responsibility of the Township, the mailbox shall be repaired and/or replaced with a new metal mailbox supported by a wooden post which meets the standard as established by Canada Post. The Township reserves the right to have a mailbox relocated if it is considered to obstruct traffic or snow removal operations.
